

COMPANY PROFILE & AZBOLOGY COFFEE CATALOGUE

From Indonesia, A Cup of Spark for the World

Single origin Indonesia • Red-cherry picked • From farm to cup

COMPANY PROFILE

We are committed to bringing halal and thayyib coffee from Indonesia as a way to strengthen the ummah's economy and empower Muslim communities across the country.

AZBO is a local initiative born from a concern for the quality of herbal products and smallholder agriculture. With that same spirit, we ventured into the world of coffee and created AZBOLOGY, a single-origin coffee line sourced from farmers on the slopes of Mount Sindoro and Sumbing in Temanggung, and in Kalibening, Banjarnegara, Central Java.

ABOUT US

It began with farmers who wanted to sell their harvest to send their children to school and provide for their families. We stepped in to collect and process smallholder coffee into a high-quality product.

We don't just sell coffee, we bring stories, blessings, and empowerment into every cup.

Coffee is not just a beverage, but a heritage of Islamic civilization that we manage today, from upstream to downstream, with care and dedication. Indonesia is the world's 4th-largest coffee producer, yet most of its farmers are still not directly connected to fair markets. Coffee was once part of Islamic civilization, AZBO is here to reclaim that role.

AZBO was built by Muslims to manage natural wealth in a way that is halal, thayyib, and sustainable.

OUR MISSION

1

Manage coffee from upstream to downstream: cultivation, care, harvesting, post-harvest, roasting, and grinding.

2

Develop local farming communities to be more independent and empowered.

3

Deliver pure, uncompromised coffee, a beverage that promotes health and strength.

4

Become a pioneer of halal & thayyib coffee for both national and international markets.

COFFEE IS NOT JUST A DRINK

It is a story of the land, the hands
of farmers, perseverance,
and togetherness.

AZBO manages Indonesian coffee from upstream
to downstream to bring you AZBOLOGY, honest
flavor, a trustworthy process, and economic
benefit that grows together.
